

SC Energosud SRL Filiasi

Company Presentation

Who we are

Our company, **SC Energosud SRL Filiasi**, was **established in 2004** and our main activities are focused on machined metal constructions and mechanical processing by cutting, with medium and high complexity.

Our current infrastructure ensures **small or medium production series** for products involving a **medium or high degree of complexity**.

All our operations are taking place in a **6800 m²** hall, which is located in the city of **Filiasi** in Romania (**36km** away from **Craiova**)

What we do

Our main activities are focused on:

- ✓ Oxyfuel and plasma cutting on CNC machines
- ✓ General Assembly Operations
- ✓ Coated electrode welding
- ✓ MIG-MAG Welding
- ✓ WIG Welding
- ✓ Plates for metal sheets rolling machine
- ✓ Sandblasting and anti-corrosion protection for the parts

Equipment

- Radial Drilling Machines
- Metal sheet cutter machines
- Metal sheet bending press
- WIG Welding Machines
- MIG-MAG Welding Machines
- ARC Welding Machines
- Special devices for positioning the parts for welding
- Hydraulic Press

Our implemented Standards

Our Staff

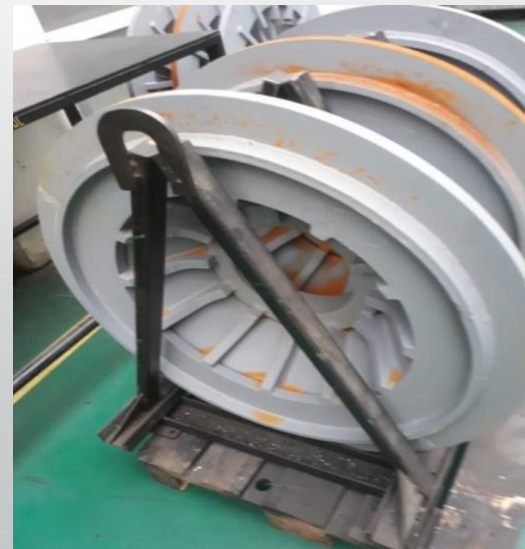

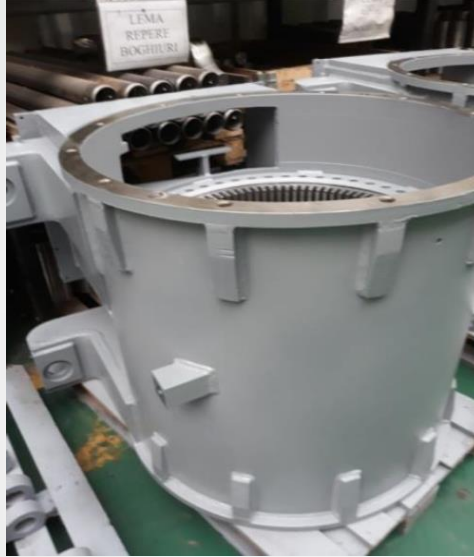

The **high quality** of our services and products is ensured by our **33 employees**, with a vast experience, in their field of work:

- TÜV Qualified Welders
- Mechanical Assemblers
- Cutting Machine Operators
- Industrial Painters

Our Portfolio

SC Softronic SA Craiova

- Welding for the motor housing and shield of electric locomotives

Our Portfolio

SC Elpreco SA Craiova

- Manufacturing of moulds for casting reinforced concrete, support pillars

Our Portfolio

SC Solid House SRL Constanta

- Manufacturing and installing roof support structure

Our Portfolio

SC ACI Cluj SA

- **Manufacturing of metal structures** which are integrated in the roof. Fencing structures and handrails were also manufactured and installed.
- This project supported the construction of **"Ion Oblemenco" Stadium** in Craiova.

Our Portfolio

OIL Terminal

- **Repair** of the fire sprinkler system by changing all the pipes.
- **Manufacturing** and installing footbridges

SC SPIACT SA Craiova

- **Manufacturing components** for railroad switches and for barriers used at railroad crossings

SC Romelectro SA Bucuresti

- **Interior electrofilter installation** at the Govora Power Station and Turceni Power Station.

SC Techno Montaj SRL Brasov

- **Interior electrofilter installation** at the C.O Oltenia Thermal Power Station
